THE REBELS WANT TO BE PRESSED! In the Richmond Dispatch of the 24th we find an article on "war news," in which it argues that it is best for the Confederates that Rosecrans and Burnside are moving, as they (the Confederates) do best when hard pressed.

The Dispatch tries o whistle up the rebel spir-

"A week or two will bring us, we believe, news to cheer us. There is no good reason now for despondency; for the situation since this time last year is not much alte ed to our disadvantage. A single victory in the Southwest will recover much that we have lost there. The strong position in East Tennessee can bardly be lost to us. Here in Virginia the enemy is further from Richmond than he was last year. Should Charleston fall he cannot make headway into the interior, and will only be able to close that place as a port of entry."

ANOTHER RAID BY MOSEBY-HE CAPTURES A LARGE SUTLER TRAIN. Yesterday morning, shortly before one o'clock, between Bull Run and Centreville Moseby with eight hundred of his guerrillas made a dash upon a large train of sutler wagons, en route for the army of the Potomac. He succeeded in capturing forty-one wagons, a large number of Government horses and other property belonging to the Government and private individuals to a very heavy amount. The train was under an escort of cavalry, but owing to the large force of rebels but little resistance could be made. A number of the drivers of the teams were also taken. Several of them, however, made their escape in the dark-

The defeat of Shorter for Governor of Alabama nettles the secessionists; Mr. Watts, the Governor elect, was a Union Whig, and it is evident that his triumph squints strongly toward the old flag. The Governor of Alabama recommends the Legislature to pass a law comprising within military duty all between sixteen and sixty years of age, including persons of foreign birth as well as natives.

Moseby and White, the guerrillas, have made another descent on the unlucky sutlers, capturing several of them, together with fortyone wagons laden with goods and a number of horses. We shall soon be compelled to believe the statement of a correspondent, who, alluding to these raids of Moseby's, said that there was a great probability of their being satisfactorily arranged between sutlers and guerrillas for speculative purposes .- Phila. ENGLISHMEN ARRESTED FOR CIRCULATING TREASONABLE DOCUMENTS .- Henry J. Childs, a native of England, about fifty-two years of age, a physician by profession, was arrested last night by the Thirteenth precinct police, on a charge of circulating hand-bills of a treasonable nature. James Dixon, an Englishman, was also arrested for assisting in the distribution of the bills, and a printer, doing business in Tryon Row, for printing the incendiary doc-

The bills were headed "Sons of Liberty," and called upon the citizens of New York in highly inflated language to subscribe \$50,000, to test the constitutionality of the Conscription law. The prisoners were all handed over to Gen. Canby .- N. Y. Post, Aug. 26.

A MOUNTAIN FROM A MOLE-HILL.-The Express of last evening, and the Journal of Commer of this morning, published an alarming story of a riotous demonstration at High Bridge, on Sunday night, and the tale was so circumstantially told that it gave the names of two soldiers of the Seventy-first regiment who

had been "severely wounded." The whole story is false. There was no disturbance; no fighting took place; the Seventyfirst were not called upon, and nobedy was wounded. The following despatch, received to day at police headquarters, from the Thirtysecond police precinct, explains the case:

"That reported disturbance at High Bridge, Sunday night, was a joke played by some of the soldiers encamped at that place on one of their own companions."—N. Y. Post, Aug. 25.

The latest Union dispatches from the army and pavy off Charleston we find in a dispatch from C. U. Fulton in the Baltmore American: OFF CHARLESTON, Aug. 22 .- A flag of truce was sent to Battery Wagner on Friday morning, and the firing ceased during the interval. When it was reopened again General Gillmore notified General Beauregard that he

would commence to shell the city of Charleston within forty-eight hours, requesting him to remove the women and children from the city. The whole of the monitor fleet went up on Friday night for the purpose of another assault

on Fort sumter. The Passaic got aground, and so much time was lost in getting her off that the expedition was abandoned for the night. The rebels did not discover the position of the

Weather very hot, no ice to be had, and nothing but warm condensed water. OFF CHARLESTON, FRIDAY NOON, August 21.-Fort Sumter still flies the rebel flag, but its west wall is a mass of ruins. Shells go into the fort and explode inside, some passing

through the east wall, going in one side and coming out the other. An easterly storm prevailed on Tuesday. We now have fine weather, and it is expected the monitors will go in force to attack Sumter this afternoon.

The Ironsides and our wooden vessels have shelled Wagner and Gregg every day, keeping them quiet, while the shore batteries are hammering Sumter.

Seven North Carolina deserters, from Sullivan's Island, were picked up in a boat last night by the Montauk. They say the rebels are preparing to abandon Sumter and blow it up; that they have been taking the guns out ever since the attack in April, which demonstrated their inability to hold it; that there are not more than six or eight guns in the fort, the remainder being quaker.

ton, and say the walls of Sumter were extensively breached in April, and that there is a great scarcity of provisions among the rebels. The flag of Sumter has been shot away four times, and now there is no flag up. The rebel batteries on James Island throw shells night and day into our lines. Admiral Dahlgren is anxious to let the army and naval batteries finish Sumter, expecting to have plenty of work for the monitors in taking

mond papers of yesterday's date. A cavalry force, under Fitzhugh Lee, crossed the Rappahannock yesterday morning near Corbin's Neck, six miles below Fredericksburg, but were speedily routed by the brigade of Gen. Custis, with a loss in prisoners of three engineer officers, and a number of privates yet unspecified in killed and wounded, before recrossing the river. Our own loss is not yet reported. It is slight. No officers injured.

A presentation will take place to-morrow, at Warrenton, to Maj. Gen. Sedgwick, of a splendid horse, with accourrements and sword and complete uniform. The gift is by the officers of the second division, second corps, once commanded by him.

The positions of the rebel army are now somewhat thus:-Ewell hes near Orange Court-House, A. P. Hill near the Rapidan Station,

A large attendance is expected at the sword presentation to Gen. Meade on Friday. Privates G. Kuhn, John Foulacy, Charles Wailer, John Reinraz and Emile Sae, of the 118th Pennsylvania Volunteers, enlisted as substitutes, and guilty of desertion, will be shot on Wednesday, at three o'clock, in presence of the Fifth Army Corps.

Twenty two rebel prisoners and deserters left for Washington last evening, and several more this morning. They report continued disaffection and desertion in the rebel army. Wm. KENTUCKY AND TENNESSEE. The Advance of Rosecrans and Burnside.

[Correspondence of the Chicago Journal.] WINCHESTER, TENN., Aug. 18 .- Again the Army of the Cumberland is on the move Again the rebels are to be met, fought, and, as surely as met, defeated, for our army knows no such word as defeat. The movement com-menced on the 16th. On that day Gen. Thomas moved from Dechard, Tenn. Payne's division, which has been stationed at the University, on the Cumberland Mountains, leading the advance. Gen. Johnson's division, of McCook's corps, left Tullahoma on the same day at four o'clock p. m., and passed through Winchester at six o'clock a. m. on the 17th. Jeff. C. Davis' division followed at two o'clock p. m. Sheridan's division moved from Cowan the same day, and joined the rest of the corps at Salem. ten miles from Winchester, on the Huntsville, Ala., road. From thence the corps moved in column, accompanied by its artillery and baggage, crossing the mountains, and striking the Tennessee river at Bellefonte, Ala, twelve miles west of Stevenson. shipped to Bridgeport in season for its rapid Crittenden's corps moved eastward to feel the strength of the enemy, and with the intention of crossing the mountains to the north and east of Chattanooga, crossing the Tennessee river at a ford some thirty miles above Chattanooga. This crossing safely effected, Crittenden will swing into the rear of Chattanooga, and, if possible, take that place. The intention is to strike that point offensively at the same time that Burnside attacks Buckner at Knoxville. This will at once prevent Buckner from receiving any reinforcements, and also, if not captured, greatly endanger his retreat, for it will be impossible to retreat toward Bragg. Mean-while, if Crittenden succeeds well in his efforts upon Chattanooga, and will not need reinforcements, Thomas and McCook will move rapidly upon Rome Georgia. Bragg is at that point with the whole of his command, save what few troops he may have at Chattanooga. It has been believed for weeks that the only

force at Chattanooga is composed of citizens and perhaps a brigade of troops who operate to keep the citizens in fighting trim. It is also believed that Bragg will not resist at Rome. As we advance, it is probable he will attempt to fall back on Joe Johnston, who was positively at Atlanta, Ga., on the 12th inst. Rosecrans will, if possible, whip Bragg in detail, disperse his forces, and then attack

[Correspondence of the Chicago Journal.] STANFORD, Ky., August 17 .- This place is fifty miles south of Lexington, Ky., and about thirty miles from the Tennessee line. Here and at Somerset the troops of Gen. Burnside have for some days been concentrating. Gen. Julius White, now in command of the 1st brigade of Carter's (the 1st) division, has just moved from here with his command, being the advance, bound for East Tennessee. This is the left wing. Somerset is on the Tennessee line, and the troops at that place - forming the right wing-moved at the same time those moved from here, commanded by Gen. Judah. Gen. Hobson is also in that division. The 9th army corps, (reserve,) which has been at Camp Nelson, about twenty miles south of Lexington, is also moving. By the latter part of this week you may hear either of the defeat or the skedaddle of Buckner's rebel army at Knoxville, East Tennessee, and of Burnside's occupation of that long oppressed region. It is generally anticipated that Buckner will not stand to give

TORPEDOES FROM CHARLESTON. The Navy Department received this aftern or, one of the infernal machines planted by the rebels in Charleston barbor. It is a novel affair and attracts considerable attention.

The main portion of it appears to be an ordinary keg bound with iron hoops, to the end; of which are affixed conically shaped additions of solid wood, secured, possibly, by means of screws, the whole encased in a thick covering

On the sides of that portion designed to remain uppermost are two iron plates, fastened down by four screws and nuts each. These plates are about 14 inches apart, and in the center of each are tubes leading to the powder, into which are screwed two percussion caps. Just above the cap is a solid stem of brass, which plays in a cylinder of the same material. This stem being struck, passes down the cylinder, strikes the cap and causes the explosion. The machine resembles a buoy in shape. To

one end is affixed a heavy weight to keep it under water, and to the other a rope passing through two small, round blocks of wood-the object of which we could not determine. If, as suggested, these blocks were designed as floats to mark the location of the torpedo to the party planting it, the object would be frustrated, as it would also define its position to those for whose injury it was designed. The explosive material it contains is of a

peculiar character, resembling pitch or tar very closely. It is in pieces, some as small as musket shot, others as large as grape. A small quantity was taken out, and a match being applied, it exploded. It is thought to be what is known as "Patent Powder," which explodes as readily after being placed in water as when DECAMPING SUBSTITUTES ARRESTED.

In the last two weeks Capt. Johnson's forces have arrested upwards of fifty substitutes who were attempting to go off, with the intention in all probability, of offering themselves as substitutes elsewhere. They were all searched, and money-ranging in amount from \$125 to \$300-was found on each of them. Most of the money was on Eastern banks, and was secreted in their socks, between the linings of their coats and pants, and in other portions of their garments. They proved for the most part to be deserters from the various regiments in the field.

RELEASED. Henry and Luther Clagett, the first brother, the latter cousin to the rebel lieutenant killed by Col. Baker's forces at Seneca, heretofere reported by us, and who were arrested by a detachment of "Scott's 900" and committed to the Old Capitol on Saturday last, having produced satisfactory evidence that they were not guerrillas, were discharged, after taking the oath of allegiance, and permitted to return to their homes, near Great Falls, Montgomery county, M d.

TELEGRAPHIC NEWS. RECONNOISSANCE UP THE CHICKA. HOMINY. SMALL BOATS DESTROYED.

REBEL CAVALRY DEFEATED.

FORTRESS MONROE, August 26 .- Major Jno. Stevenson, Lieut. D. H. Chambers, and sixty men of Robert's Third Pennsylvania artillery left here on Sunday night, on the armed steamboat C. P. Smith, and reached the Chickahomony river Monday a. m., and proceeded about ten miles up, landing scouting parties at different points along the shore, destroying a number of small boats.

When about nine miles up the Chickahominy, they met and attacked thirty Rebel cavalrymen, belonging to Robinson's regiment. The cavalry were repulsed. No one on our side was injured. They then shelled and destroyed the building used as headquarters by Colonel Robinson.

They captured two men, and after obtaining from them all desired information let them go. The expedition returned to Fortress Monroe this afternoon, having succeeded in the recon-

The Toledo (Ohio) Blade publishes, from the original copy now in possession of its editors, the following letter, which was picked up in the streets of Brandon, Mississippi, by Captain Dinnis, of the 62d Ohio Regiment. The Blade says that it is written in unusually fair penmanship, and is evidently the production of an intelligent man who is in a position to speak correctly of that whereof he writes. It confirms other reports which we have recently had from the South of the demoralization and despondency of many of its soldiers:

BRANDON, July 16, 1863. I wrote to you very hurriedly yesterday, and this morning learn that Gen. Johnston has ordered this army to be marched across to Enterprise, one hundred miles further. It will take a week longer. No provision has been made along the route, and the men are already much dissatisfied with the vacillating policy and hollow promises by which they have been

duped so long. Of the thirty thousand paroled at Vicks-burg, only one half are now together, and ere we reach Enterprise this number will be reduced to five thousand-they of the Georgia, Alabama, and Tennessee troops, who also the 27th inst., at ½ past 6 p. m., of 2 Spotted Sows, 1 Boar, 1 Black Sow. and 1 Spotted Sow. Pound Master.

All leave with or without furloughs so soon as they learn the alternative of going into camp of parole. The army of the Mississippi is completely lost.

Meantime, Gen. Johnston holds Jackson—we

hear the guns constantly. The enemy are making gradual approaches, and after a week longer will have that place. With it falls Mobile. This entire section is fleeing eastward. Georgia will have a population of five millions to feed this year. Ruin, utter and entire ruin, has swept over this State. The negro emancipation policy, at which we so long hooted, is the most potent lever of our overthrow. It steals upon us unawares, and ere we can do any. thing the plantations are deserted, families without servants, camps without necessary attendants, women and children in want and misery. In short, the disadvantages to us now arising from the negroes are ten-fold greater than have been all the advantages derived from earlier in the war.

It is useless to discuss the errors of the pastpossibly there have been none that could have been avoided-certainly we are a defeated and a ruined people, shorn of our strength, powerless for a successful solution of the problem undertaken: or, rather ours was erroneous. The solution has been shown us by a more favored people.
